3-6-08 Targeted Brownfields Assessment SQAP.pdf

Trip,

As an update, I just received last night from EPA the Draft Final version of Ecology & Environment, Inc's (E&E) Sampling & Quality Assessment Plan (SQAP). The draft report is voluminous to say the least ... no wonder it took so long!!

Since our last communication February 1st no further communication has been gleaned from EPA and E&E until this e-mail. According to this E-mail E&E is anticipating there on-site sampling to be the week of March 17th ... as I anticipated in our last communication.

This potentially being the case, please anticipate either I or EPA's Contractor E&E will be in contact with you soon prior to E&E mobilization on site.

Talk soon.

Thanks.
